

Warm-Ups: The Calendar

- Calendar activities reinforce the 5 content strands
 - number sense, concepts and operations
 - geometry
 - algebraic thinking
 - measurement
 - data analysis
 - probability
- Daily practice with patterns in the geometry strand is provided.
- Patterns are found using combinations of two different attributes: the shapes, the colors or the sizes.
- Geometric terms are also reinforced with this type of activity.
- This calendar activity can easily be extended to include three-dimensional shapes or three attributes.
