

Produced by the United States Geological Survey and National Ocean Survey
Control by USGS and NOAA
Orthophotomaps prepared from aerial photographs taken January 8, 1970. Contour interval 3 meters. Bathymetric contours from aerial photographs taken January 1973 and planimetric contours 1981. Field checked 1981. Map edited 1982. Supplemental topographic map dated 1956.
Bathymetry compiled by the National Ocean Survey from tide-coordinated hydrographic surveys.
This information is not intended for navigational purposes.
Mean low water (dotted) line and mean high water (solid) line compiled by NOAA from tide-coordinated aerial photographs. Apparent shoreline (outer edge of vegetation) shown by photography.
Projection and 10,000-foot grid ticks: Florida coordinate system, north-south. U.S. standard conformal conic, zone 18. 1927 North American Datum. Scale: 1:250,000.
To show on the projected North American Datum 1983, move the projection lines 19 meters south and 6 meters west as shown by dashed corner ticks.
There may be private inholdings within the boundaries of the National or State reservations shown on this map.
