

Produced by the United States Geological Survey and National Ocean Survey
Control by USGS and NOAA
Orthophotography prepared from aerial photographs taken January 23, 1978. Contours by photogrammetric methods from aerial photographs taken January 1978 and photogrammetric methods from January 1978 and photogrammetric methods from January 1982. Bathymetry compiled by the National Ocean Survey from tide-occurred aerial photographs. Mean low water (MLW) line and mean high water (MHW) line compiled by NOAA from tide-occurred aerial photographs. Apparent shoreline (outer edge of vegetation) shown by photography.
Projection and 10,000-foot grid ticks. Florida coordinate system, north-south zone. Contour interval 2 meters.
1982 North American Datum. American Datum 1983. The projection lines 19 meters south and 7 meters west as shown by dashed contour ticks.
There may be private showings within the boundaries of the National or State reservations shown on this map.

TIME ZONE AND 1984 MAGNETIC NORTH DECLINATION AT CENTER OF SHEET
