

Produced by the United States Geological Survey and National Ocean Survey
Control by USGS and NOS/NOAA
Orthorectification prepared from aerial photographs taken January 18, 1976. Compiled by photogrammetric methods from aerial photographs taken January 1973 and plane-table survey 1978. Final checked 1977. Map edited 1982. Superimposed topographic map dated 1945.
Bathymetry compiled by the National Ocean Survey from the combined hydrographic services for operational purposes. Mean low water (dotted) line and mean high water (solid) line compiled by NOS from micro-encapsulated aerial photographs. Apparent shoreline (outer edge of vegetation) shown by photography.
Projection and 10,000-foot grid ticks: Florida coordinate system north over (English continental cone), zone 16 1257 North American Datum.
To place on the projected North American Datum 1983 raise the projection from 18 meters south and 7 meters west as shown by dashed corner ticks.
