

Mapped by U. S. Coast and Geodetic Survey and National Ocean Service
Edited and published by the Geological Survey
Control by NAD 83 (NAD 83), and Florida Geodetic Survey
Photometry is by photogrammetric methods from aerial photographs taken 1942. Topography by planimetry between 1945-1946.
Bathymetry compiled by the National Ocean Service from hydrographic survey data. This information is not intended for navigational purposes.
Mean low water (dashed line) and mean high water (heavy solid line) contours are from 1958 (one-contour) aerial photographs. Apparent shoreline (outer edge of vegetation shown by light solid line) is from 1952 (two-contour) aerial photographs.
10,000-foot grid lines based on Florida coordinate system, east zone 18N, are shown in blue.
To place on the projected North American Datum 1983, read the projection lines 35 meters south and 22 meters west as shown by dashed corner ticks.
There may be private encroachments within the boundaries of the National or State reservations shown on this map.
No distinction is made between dwellings, barns, commercial and industrial buildings.
Red line indicates areas in which only landmark buildings are shown.
Reservoirs shown in profile and embankments shown by the Geological Survey in cooperation with the National Ocean Service from aerial photographs taken 1980 and other sources. This information not valid elsewhere. Name added 1983.

NATIONAL OCEAN SERVICE
HYDROGRAPHIC SURVEY INDEX

NUMBER	DEPTH	SCALE	DEPTH INTERVAL
1000	1000	1:1000	10
2000	2000	1:2000	20
3000	3000	1:3000	30
4000	4000	1:4000	40
5000	5000	1:5000	50
6000	6000	1:6000	60
7000	7000	1:7000	70
8000	8000	1:8000	80
9000	9000	1:9000	90
10000	10000	1:10000	100

Riviera Beach Quadrangle, circa 1983
