

Produced by the United States Geological Survey and National Ocean Survey  
Control by USGS and NOAA  
Orthophotomaps prepared from aerial photographs taken January 18, 1976. Contoured by photogrammetric methods from aerial photographs taken January 1975 and February 1977. Map dated 1982.  
Supersedes topographic map dated 1943.  
Bathymetry compiled by the National Ocean Survey from side-scaned bathymetric surveys.  
This information is not intended for navigational purposes.  
Mean low water (dotted) line and mean high water (solid) line compiled by NOAA from tide-measured aerial photographs. Apparent elevation (outer edge of vegetation) shown by photometry.  
Projection and 10,000-foot grid ticks: Florida coordinate system, north-south (Clarke's conformal cone), 1000-meter Universal Transverse Mercator grid, zone 16 1982 North American Datum.  
To place on the projected North American Datum 1983 move the projection lines 18 meters south and 6 meters west as shown by dashed corner ticks.
