FORT MYERS QUADRANGLE
FLORIDA-LEE CO.
7.5 MINUTE SERIES (TOPOGRAPHIC-BATHYMETRIC)

Produced by the United States Geological Survey and the National Ocean Service
Control by USGS and NOS/NOAA
Culture and contours in part compiled from aerial photographs taken 1951-1952. Topography from planimetric surveys 1958. Bathymetry compiled by the National Ocean Service from tide-coordinated hydrographic surveys. This information not intended for navigational purposes.
Mean lower low water (mllw) line and mean high water (mhw) line compiled by NOS from tide-coordinated aerial photographs. Apparent shoreline (outer edge of vegetation) shown by light solid line. Physical shoreline, 1957 North American Datum, 1000-foot grid and ticks based on Florida coordinate system, west zone 1200-meter Universal Transverse Mercator and ticks, zone 17, shown in blue.
To place on the projected North American Datum 1983, move the projection lines 35 meters south and 18 meters west as shown by dashed corner ticks.
Red lines indicate areas in which only landmark buildings are shown. Red lines shown in purple and woodlot compiled in cooperation with State of Florida agencies from aerial photographs taken 1984 and other sources. This information not checked.
Map edited 1987.
Purple line indicates extension of urban areas.
