

1. Diked
2. Waterway. May be partially submerged at mean high water
3. Exposed at mean low tide

Produced by the United States Geological Survey and National Ocean Survey  
Controlled by USGS and NOAA  
Orthophotomaps prepared from aerial photographs taken January 10, 1976. Contours by photogrammetry.  
Aerials from aerial photographs taken January 1975. Supplemental topographic map dated 1943.  
Bathymetry compiled by the National Ocean Survey from tide-contoured hydrographic soundings.  
This information is not intended for navigational purposes. Users are advised that not every high water sound line compiled by NOAA from tide-contoured aerial photographs appears above the center edge of vegetation shown by photography.  
Proprietary and 800-foot grid ticks: Florida coordinate system, north-south (United States National Grid), cover 15 1971 North American Datum.  
To place on the pre-1983 North American Datum 1983 cover the grid ticks from 23 meters south and 9 meters west as shown by dashed corner ticks.  
There may be private subdivisions within the boundaries of the National or State reservations shown on this map.

ORTHOPHOTOMAP QUALITY INFORMATION

Survey Number	Survey Date	Scale	Contour Line Spacing (Feet)
M 12863	1976	1:24,000	10.00

CONTOUR INTERVAL 2 METERS  
SUPPLEMENTARY CONTOUR INTERVAL 1 METER  
NATIONAL GEODESIC SURVEY DATUM OF 1983  
OTHER RELATIONS SHOWN TO THE NEAREST 5 METERS
