

Produced by the United States Geological Survey and National Ocean Survey  
Control by USGS and NOAA  
Orthophotomaps prepared from aerial photographs taken January 18, 1976. Compiled by photogrammetric methods from aerial photographs taken in February 1975.  
Field checked 1981. Map dated 1982.  
Supersedes topographic map dated 1968.  
Bathymetry compiled by the National Ocean Survey from bathymetric and hydrographic sources.  
This information is not intended for navigational purposes.  
Mean low water (dashed line) and mean high water (solid line) compiled by NOAA from tide-estimated aerial photographs. Apparent distance (outer edge of vegetation) shown by photography.  
Projection and 10,000-foot grid scale. Florida coordinate system, with zone 18 East (central meridian 82°00'00\"/>
