CARRABELLE QUADRANGLE
FLORIDA - FRANKLIN CO.
7.5 MINUTE SERIES ORTHOPHOTOMAP
(TOPOGRAPHIC - BATHYMETRIC)

Produced by the Geological Survey and the National Ocean Survey
Controlled by the USGS and NOS/NOAA
Orthophotomaps prepared by the Geological Survey from aerial photographs taken January 18, 1975. Topography by photogrammetric methods from aerial photographs taken January 1975 and planimetric surveys 1978. Field checked 1978. Map dated 1981.
Supersedes topographic map dated 1942.
Bathymetry controlled by the National Ocean Survey from tide-coordinated hydrographic surveys.
Knowledge compiled from NOS chart 1306.
This information is not intended for navigational purposes.
Mean low water (dashed line) and mean high water (solid line) approved by NOS from tide-coordinated aerial photographs by photogrammetry.
Projection and 10,000-foot grid ticks: Florida coordinate north, with area datum (vertical control).
1000-meter Universal Transverse Mercator grid, zone 16 1957 North American Datum.
To align on the projected North American Datum 1983, apply the projection lines 12 centimeters north and 9 meters west as shown by dashed corner ticks.
Dotted land lines established by private subdivisions of the Forbes Purchase.
These maps to prevent misreadings within the boundaries of the National or State reservations shown on this map.
