

Wheel Time

- Working in small groups gives students a feeling of independence and responsibility for their work.
- Setting time limits for a variety of activities keeps students occupied and prevents boredom and frustration.
- Having groups of students rotate through different math activities provides individualized and differentiated instruction.
- Students can work individually, in small groups or with a teacher.
- Showing the students how to complete the activities is very important to managing small groups.
- Changing the activities daily gives the students something to look forward to each day.
