PROJECT OVENBIRD

Student Survey Results

May 30, 2019

1. What was your favorite part of this project? (Please be specific).

- Getting footage
- Recording and doing bloopers
- Making videos
- Filming the funnel experiment
- I enjoyed taking pictures and filming nature
- The editing of our videos
- Tablets and taking videos
- Using iMovie
- Going outside and checking the nets
- Doing the voice overs
- Researching the animal
- When we went outside and took pictures of the trees.
- My favorite part was picking the music

2. How did this project help your learning about Ovenbirds?

- I learned about the diet of the Ovenbird & where they live
- It provided us with different learning skills
- Taking down notes
- It showed me “hands on” activities
- It helped me learn because we had to research things so I read a lot about ovenbirds.
- I learned how to use iPads better.
- “It taught me about ovenbird endangerment.”

3. If we do this project again, how could we make it better?

- Get more time instead of just every Friday.
- Maybe do more experiments like the funnel
- Let students pick their groups
- Make it longer & funny
- We should go further out into the woods
- Doing it in the ovenbird season so that we can catch one
- I would like to catch an ovenbird next time
- My favorite part of the project was learning a lot of important and interesting facts about the ovenbird
- We get a picture of what the ovenbird looks like
- "Get more iPads"
- "By being serious about it and not laughing and wasting time."
- "By changing nothing!"
- "I don't know because it was perfect."
