Dear Mr. White:

Tampa local of the Brotherhood of Sleeping Poters which is composed of a large percentage of active N. A. A. C. P. members, would be very greatful if you would inform us what assistance or advice can the local branch of the N. A. A. C. P. expect from National headquarters concerning the suit aganist the Tampa election board, for denying the Negro the right to vote in the white primary.

We do not quite understand why Mr. T. Marshall will appear in West Palm Beach November 26th and 27th in behalf of the Teachers Association and we have not been notified of his presence here. Mr. White we apologize if we are wrong, but we feel that we have been slightly over looked by not receiving any information from the home office.

We are urging you to give this your personal attention for the time is limited to file with the United States Supreme Court, also the entrest that the people of Tampa are taking is very high. I am sure that if we follow it up closely with the proper steps we will should be able to increase our membership greatly.

We are looking to hear from you as soon as possible, as just what we should do.

Respectfully yours,
Tampa Local of the Brotherhood
of Sleeping Car Poters,

H. N. Reddick, Cor. Secy.
